

# Congratulations

Dear Student,

On behalf of everyone at Eazzysocial, we are pleased to congratulate you on your acceptance into the December 2022 cohort of the UX/UI Design Course.

Due to the numerous applications we receive and the quest to maintain a good student-to-trainer ratio, we accept 100 students for each course per cohort on a first-come, first-served basis.

We will contact the first 100 students to confirm their participation in this cohort via WhatsApp and schedule them for onboarding with their course mentor a week before the training begins. Kindly keep your WhatsApp active at all times.

Students who don't get selected for the December 2022 cohort will be moved to participate in our Sand-Witch Cohort in January 2023 and February 2023.

Training will take place through the use of Microsoft Teams and other online video conferencing tools.

There will be at least 2 training sessions each weekend ( Saturday and Sunday) for a 1 month period with your mentor, and students will have to participate in all sessions or forfeit their participation in the course.

In the final week, students will be required to join a group and translate what they've learned into a project to be submitted for review.

Students will be ushered into our "Get Hired" platform after the training to assist with internships and jobs at no cost.

Please note: Students are required to pay a token of 50 cedis for Ghanaian students and its equivalent in your country's currency for students outside Ghana as certification fees after the first week of training.

We look forward to having you join us on this career transformation program.

*Congratulations*

Kindly express your gratitude by letting your friends know about the Eazzysocial Campus Club and getting them to enroll!
