

# Congratulations

Dear Student,

On behalf of everyone at Eazzysocial, we are pleased to congratulate you on your acceptance to the December, 2022 cohort of the Social Media Advertising and Campaign Planning Course at Eazzysocial.

Due to the numerous applications we receive and the quest to maintain a good student-to-trainer ratio, we accept 100 students for each course per cohort on a first come, first served basis.

We will contact the first 100 students to participate in this cohort via WhatsApp and schedule them for onboarding with their mentor a week before the training begins.

Students who don't get selected for the December, 2022 cohort will be moved to participate in our Sand-witch Cohort in January, 2023 and February, 2023 Cohort.

Training will take place through the use of Zoom and other online video conferencing tools.

There will be at least 1 training session each week with your mentor, and students will have to participate in all sessions or forfeit their participation in the course.

In the final week, students will be required to join a group and translate what they've learnt to build a project to be submitted for review, upon which certification will be awarded at a token fee of 50 cedis for Ghanaian students and USD5 for students outside Ghana.

Please note that the project work and certificate serve as a basis for students to get connected with internships and jobs after training and are compulsory for a student to have.

We look forward to having you join us on this career transformation program.

Kindly express your gratitude by letting your friends know about Eazzysocial Campus Club and getting them to enroll!
